### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Although the use of cervical and side support pads as well as shoulder relief areas or indentations is well known in the art of pillow devices, the examiner respectfully asserts that none of the prior art, taken either singly or in combination, is seen to teach or suggest the use of a pillow having the particular structural configuration as specifically recited in Applicant's sole independent claim 1; namely, a pillow comprising a generally rectangular head support pad, *a pair* of cervical support pads each positioned along one of a first set of opposed edges of the head support pad, *a pair* of side support pads each positioned along a second set of opposed edges of the head support pad, and *a pair of angular* shoulder relief areas each formed within a relieved portion *of each side support pad* adjacent one of the *first* set of opposed edges. Hence, it is considered that the application is currently in proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
